If elected as the Computer and Web Secretary, I propose to do the following -

**WEBSITE**

◆ Improvement of the current Website.
   The current Hostel 2 website was last updated 2 years ago. It looks good but still lacks the use of Javascript. Hence I would like to implement some basic JS features to improve the animation’s on the website.

◆ Management of the Website.
   The management of website includes posting regular update of the events that occur in the Hostel. Currently there is no “Recent Activity” or “New’s” tab on the website. Hence I would like to add it and make the Website more informative.

◆ Implimentation of KFC (or Mc Donalds) portal to order food.
   Currently there is a sheet for ordering food from KFC but I would like to add such portal to the website so that we can increase number of active users.

**LAN**

◆ Make sure LAN issues are resolved during vendor visit.

◆ Encourage more and more people to make use of complaint management system.

◆ Installation of a Wi-Fi Router in the 4th wing.

**STUDY ROOM**

◆ Management of Study room.
   Study Room requires a PC, Router and Printer. Also management of those instruments and making rules for its right usage will be done.

◆ Maintain cleanliness of the room and also look into the installation of AC in the study room.

**ANDROID APP**

◆ The current android app is just a basic version which lacks a back-end and is mostly hard-coded. Thus I would like to improve the current app by improving the GUI. Also if possible, I will try to create a back end so that the information on the app can be easily updated.

◆ Notification system on the App.
   The current android app doesn’t have a notification system. Hence the information about events is not conveyed easily. I would like to add a notification system on the app so that it can be easily done.
AS A COUNCIL MEMBER

- I will actively participate in the Hostels events and will assure proper co-operation with the council members.
- Arranging hostels gaming nights in the Fun2oosh Event.
- Helping other council members in the areas where they might require my assistance.
